## **Risk Management & Cost Efficiency**

Through fleet optimization we ensure to manage our business risk and provide the most cost-efficient services

Risks and gains are carefully and diligently weighted when concluding shipping contracts, giving highest regard to the environment, health and safety. Under these premises GIFCO GLOBAL has been very successful in optimizing vessels' results using market intelligence and information flows.

# Chartered Vessels

---

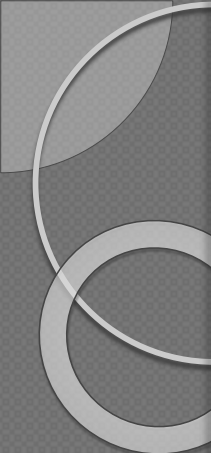

- The SIRE Program is a unique tanker risk assessment tool of value to charterers, ship operators, terminal operators and government bodies concerned with ship safety.

# Our Services

- Today's tanker trade is facing a multitude of operational, technical, environmental and other challenges. Legislative developments and geopolitical demands ask for a professional approach. GIFCO GLOBAL is able to offer solutions and can also rely on the superior expertise from 1st class ship managers. Their know-how is combined in GIFCO GLOBAL to the benefit of all participating owners.

A large variety of vessel specifications enables GIFCO GLOBAL to adapt to our customers' particular transportation requirements, whether for clean or dirty cargoes, trading in ice, performing special STS requirements, or any other demanding tasks.

- 
- A dedicated, safety and customer oriented post fixture service enhances the advantages of the GIFCO GLOBAL fleet, focusing on charterers', shippers' and receivers' operational needs.
  - A constant dialogue with all participants in the transport chain and an extensive network across the industry enables GIFCO GLOBAL to adapt to future challenges.
  - GIFCO GLOBAL enjoy the advantages of a world class team of chartering and operations experts. Close customer contacts and knowledge of terms and clauses is coupled with optimized ship and cargo scheduling.
  - Risks and gains are carefully and diligently weighted when concluding shipping contracts, giving highest regard to the environment, health and safety. Under these premises GIFCO GLOBAL has been very successful in optimizing vessels' results using market intelligence and information flows. The worldwide GIFCO GLOBAL commercial network ensures that commercial downtimes are minimized.
